

Program type/CCA	<a href="#">Marin County Clean</a>	<a href="#">Sonoma Clean Power</a>	<a href="#">CleanPower SF</a>	<a href="#">Peninsula Clean Energy</a>	<a href="#">Silicon Valley Clean</a>	<a href="#">Lancaster Energy</a>
Energy efficiency	Energy efficiency rebates	Created DIY Energy + Water Savings Toolkit (guidebook can be downloaded and toolkit can be borrowed from local libraries)	<a href="#">BayRen</a> - local govt support to make buildings more energy efficient	<a href="#">Home Upgrade Program</a> for income-qualified customers for energy efficiency upgrades and repairs at no cost.	Rebates for efficient electric home upgrades	1) free energy efficiency audits and upgrades to qualifying local businesses (e.g., LED lighting, occupancy sensors, strip curtains, door closers);
Home energy assessments/audits	Home energy assessments + free upgrades (attic insulation, duct sealing, smart thermostat, etc.)					
Electric lawn equipment rebates						Up to \$275 credit when trading in gas powered lawn mower for electric model
Electric panel upgrades (including 0% loans), single and multifamily homes		Established Multifamily Building Improvement program (with BayREN) to provide incentives to multifamily properties to upgrade for electrification (\$750 per unit + \$500 for electrical panel upgrades + \$500 for central panel upgrades)		Zero interest (10 yr) loans up to \$10K for HPWH, HPSH, panel upgrades, energy efficiency/weatherization work.		
Electric appliance rebates						some <a href="#">electric appliance rebates</a>
HPWH/HPSH rebates	Heat pump water heater rebates + contractor incentive program	1) Heat pump water heater (\$3,100) and induction range (\$500) rebates; 2) Water heater electrification for governments (includes libraries, community centers, transit centers and other public facilities) provides low-to-no-cost water heater replacement	<a href="#">Heat Pump Water Heaters</a> - \$1000 rebate to customers to install HPWH	1) Zero interest (10 yr) loans up to \$10K for HPWH, HPSH, panel upgrades, energy efficiency/weatherization work; 2) Up to \$3K rebate for HPWH; 3) Up to \$3.5K rebate for HPSH		
Wildfire loss electrification	Advanced Energy Rebuild Napa (electrification incentives for homes destroyed in Napa fires)					
Various training/consulting programs	Established 65-acre workforce development agency, MCE Solar One project (with City of Richmond + RichmondBUILD) for onsite training for green-collar jobs	Established Commercial Energy Assistance Program to provide consulting services to businesses on energy savings			Paid contractor training	
100% clean energy opt up			<a href="#">Supergreen saver</a> - includes 100% green energy and a 20% monthly bill savings (residents of disadvantaged communities (DAC) only)			
Peak/emergency load reduction		1) Established FLEX market program to incentivize installers + project managers to reduce energy use during peak hours; 2) GridSavvy Rewards Alerts program to incentivize customers to reduce energy use during peak times	<a href="#">Peak day pricing program</a> - rewards residents and biz for reducing energy on peak days		Emergency load reduction program	<a href="#">Demand Response Program</a> for peak hour savings
EV						
- EV rebates			1) <a href="#">PG&amp;E rebate</a> for EV purchase (low income) 2) <a href="#">CA-CVRP California Clean Vehicle Rebate Project</a>	<a href="#">Up to \$4k</a> for used plug-in hybrid or EV based upon income.		<a href="#">EV rebate</a> of \$500 when purchased through local dealerships.

Program type/CCA	<a href="#">Marin County Clean</a>	<a href="#">Sonoma Clean Power</a>	<a href="#">CleanPower SF</a>	<a href="#">Peninsula Clean Energy</a>	<a href="#">Silicon Valley Clean</a>	<a href="#">Lancaster Energy</a>
- EV charging station rebates	EV charging rebates (workplace or multifamily; \$3000-level 2, \$750-level 1); CA EV infrastructure program rebates (for disadvantaged communities); Solar charging stations	1) EV charging incentives (50% discount); 2) EV charger incentive program for underserved communities	<a href="#">EV Charge SF</a> - incentive to help install EV chargers in new construction (city of SF)		Incentives for EV charging at multi family properties	Incentives for EV chargers: in conjunction with SCE <a href="#">"Charge Ready Program"</a> for most customers (except single-family residential).
Solar (+/- storage)						
- residential rebates	Income qualified solar rebates (with GRID Alternatives)		<a href="#">GoSolar SF</a> - city of SF program to provide rebates for solar installations	Up to \$500 rebate when installing storage plus PV		<a href="#">Power Choice</a> - solar + storage through Tesla
- multifamily			<a href="#">SOMAH</a> (solar on multifamily affordable housing) - CPUC program			<a href="#">Power Choice</a> - solar + storage through Tesla
- non-profit rebates	EV incentives for nonprofits (up to \$22,500)					
- feed-in-tariffs	Feed-in-Tariff (FIT) + FIT Plus programs (to incentivize small-scale renewable energy projects (solar farms, biomass, wind))					
- storage (residential, medical customers)	Distributed 100 portable, off-grid battery to medically vulnerable customers; Energy storage rebates for solar customers (\$1,500-4,500)					<a href="#">Self-Generation Incentive Program</a> for battery storage
Other		Established Advanced Energy Center (bricks +mortar) to educate and empower customers in the transition to 100% clean energy			1) innovation grants; 2) student grants	Various rebate programs through <a href="#">SoCalREN</a> .
