

# Clean Energy Alliance: Regulatory Update

Tim Lindl – Keyes & Fox LLP

June 17, 2024

**KEYES&FOX**<sup>LLP</sup>

# Overview

- **Optional GHG-Free Allocations from Diablo Canyon**
- **Quick Hits:** Power Charge Indifference Adjustment (PCIA) Rates
  - SDG&E 2025 Energy Resource Recovery Account (ERRA) Forecast Case (A.24-05-010)
  - SDG&E 2023 ERRA Compliance Case (A.24-06-001)

## Diablo Canyon GHG-Free Allocations

- D.23-12-036: If CEA's customers are paying for extended operations at Diablo Canyon, they should receive the benefit from those operations.
- Diablo's GHG-Free attributes would reduce the GHG intensity of the power a load-serving entity (LSE) offers to its customers.
- CEA has the option to choose to take the GHG-free allocations.
- Allocations will begin in January 2025

## Diablo Canyon GHG Allocations (cont'd)

- PG&E June 12 Advice Letter proposes a process for allocating GHG-free attributes to CEA and other LSEs.
- Before then, PG&E will offer GHG-free energy attributes to LSEs and enter into a sales agreement with the LSEs that opt to take them.
- PG&E proposes to confer with LSEs in addition to Energy Division Staff by July 25 re how to develop GHG-free energy attribute allocation ratios.
- Future CEA decision: whether to take the GHG-free allocations or not

## Quick Hits

- 2025 SDG&E ERRRA Forecast Case:
  - CEA filed a Protest on June 17
  - Opposed SDG&E's proposal to cap the value of RA capacity, among other issues.
- 2023 SDG&E ERRRA Compliance Case:
  - Filed June 1
  - Among other issues, ensures SDG&E's generation costs were put in the right accounting bucket to prevent CCA customers from overpaying
