

CLEAN ENERGY ALLIANCE

Your local source for clean energy

Serving North County San Diego communities since 2021

Who We Are

Clean Energy Alliance is the public, not-for-profit power provider for the cities of Carlsbad, Del Mar, Escondido, Oceanside, Solana Beach, San Marcos and Vista. As a Community Choice Aggregation program, CEA offers customers clean energy, local control and competitive rates.

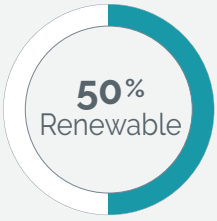

How It Works

1. Clean Energy Alliance purchases power directly from power providers and/or builds energy generation sources.
2. SDG&E delivers energy, handles billing and serves customers.
3. You receive energy at competitive rates.

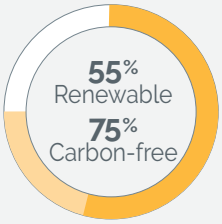

Customer Options

CEA offers customers three power choices, all of which offer more renewable and carbon-free energy than state requirements.
